

Cost Breakdown for Deploying an Android and iOS App

Developer Accounts

1. Google Play Store (Android) :

- a. Cost : \$25 (one-time fee)
- b. Details: This fee is required to publish apps on the Google Play Store.

2. Apple App Store (iOS) :

- a. Cost : \$99 per year
- b. Details : This annual fee is required to publish apps on the Apple App Store.

Total Estimated Costs

Here's a rough estimation for a basic deployment:

1. Initial Deployment:

Developer Accounts:

- 1. Google Play Store: \$25 (one-time fee)
- 2. Apple App Store: \$99 (annual fee)
- 3. **Total:** \$124

2. Ongoing Monthly Costs :

- a. Developer Account (iOS): \$8.25 (part of the annual \$99 fee)

Estimated Deployment Time

1. **Android App Deployment:**

a. **Steps:**

- i. Create a developer account and pay the \$25 fee.
- ii. Prepare and submit the app for review.
- iii. App review and approval.

- b. **Estimated Total Time:** 1-3 days for approval, plus any additional time needed for app preparation.

2. **iOS App Deployment:**

a. **Steps:**

- i. Create a developer account and pay the \$99 annual fee.
- ii. Prepare and submit the app for review.
- iii. App review and approval.

- b. **Estimated Total Time:** 1-2 weeks for approval, plus any additional time needed for app preparation.
